KYLE HOOPII LITTLEJOHN

Strategy & Operations | Chief of Staff | Program Governance & Delivery | AI-Native Operator

+1 (540) 604-3405 · khlittlejohn@gmail.com · kylelittlejohn.com · New York, NY

SUMMARY

Strategy and operations leader with 12 years building governance frameworks, operating cadences, and executive reporting across Financial Services, Healthcare, Biotech, Media & Entertainment, and SaaS. I partnered with the CEO and the C-suite through Kaseya's $350M to $1.75B scale, then joined SOL Consulting as an early operator on its scale-up from 4 to 90+ people. Through KLJ Ventures I taught myself AI by building with it, and I now design and run a production system of 120+ specialized AI agents with human approval on every output, gaining hands-on AI and founder-level experience while I pursue a full-time Strategy & Operations or Chief of Staff role.

KEY ACHIEVEMENTS

Board Reporting Through a $350M to $1.75B Run

As a trusted advisor to the Kaseya CEO, built the board materials and KPI reporting for a $1B+ SaaS business, and contributed the financial narrative behind the $500M+ TPG and Insight Partners round.

Early Operator From 4 to 90+ People

Joined SOL Consulting when it was a scrappy 4-person firm and built its delivery standards, staffing model, and performance reporting, helping scale the firm to 90+ people on that infrastructure.

~30% Cycle-Time Cut Across 16 Business Units

Built the intake system and decision log behind 16 business units and 12 external partners on the AMC Networks account, and execution cycle time fell roughly 30% as a result.

120+ AI Agents, Built and Run Daily

Designed and run a production system of 120+ specialized AI agents on Claude Code across 14 functional domains, with MCP servers, evaluations, quality gates, and a governance layer.

EXPERIENCE

Founder, AI Systems Consultant

2026 – Present · Remote

KLJ Ventures

My own AI-systems practice, run alongside my search for a full-time role, where I design, build, and operate production AI agents on Claude Code with MCP servers, evaluations, deterministic quality gates, and an event-driven architecture.

- Designed and personally operate a production system of 120+ specialized AI agents across 14 functional domains, automating research, drafting, and reporting, with human approval on every output before it reaches an inbox, deliverable, or published page.
- Capabilities extend to AI-transformation strategy and execution, end-to-end consumer app development, and web design and engineering, all self-taught and self-directed.

Director, Strategy & Client Delivery

2020 – 2026 · Remote

SOL Consulting

Held the Account Manager role on AMC Networks, the firm's largest account, for 5+ years, adding Senior Technical Project Manager and then Senior Program Manager scope while a Director at SOL Consulting.

Senior Program Manager, FAST / AVOD Marketing (AMC Networks)

- Gave every open decision one named owner, one metric, and one date through the intake system and decision log I built across 16 business units and 12 external partners on the account, which cut execution cycle time by roughly 30%.
- Stood up AMC's FAST and AVOD lines of business, and coordinated the launch calendar across all 32 FAST channels.
- Set the agendas and built the materials for the steering committees and leadership meetings, kept the risk registers current, and ran the root-cause review rather than the status update whenever a milestone slipped.
- Interviewed and hired SOL Consulting's program managers against a structured scorecard, and managed that team directly for 5+ years.

Senior Technical Project Manager, Digital Transformation (AMC Networks)

- Contributed to the AMC+ launch and led change management across it, as AMC Networks' digital revenue rose roughly 65%.
- Turned business needs into functional requirements, then built the AMC+ launch dashboards and Excel-based reporting hands-on.
- Ran the cross-functional workshops across Product, Engineering, QA, and Marketing that cleared the AMC+ launch blockers, and coordinated user acceptance testing and release sequencing through go-live and cutover.
- Replaced the scattered stand-ups with a single written weekly read leadership could act on and measure, giving them direct visibility into delivery progress, dependencies, and execution risk across the AMC+ launch.

Account Manager (AMC Networks)

- Grew the AMC Networks account from $280K to $2.1M across consecutive renewals, a 7.5x expansion over 5+ years.
- Directed engagement margin and delivery oversight for a team of 8 consultants, managing pricing, consultant staffing mix, utilization, and scope creep, and reporting delivery performance against client and margin targets.
- Coordinated the budget and headcount cases behind each renewal, from business rationale through approval with client finance.
- Served as the liaison to the AMC Networks executive teams, and reviewed individual partner cases one by one, not only the rollup.

Senior Manager, Strategic Finance & Business Operations — 2018 – 2020 · New York, NY

Kaseya

Worked directly with the CEO and the C-suite of a private-equity-backed SaaS business, building the KPI and board-level reporting a $1B+ organization ran on through 10 acquisitions over about 2.5 years.

- Built the post-close integration rhythm that brought 10 acquired companies onto one shared set of plans, KPIs, and definitions, moving each one's HR, FP&A, and CRM onto Bamboo, Adaptive Planning, and Salesforce.
- Served as a trusted advisor to the CEO, ran and prepared the executive town halls, and led the weekly leadership meetings, surfacing missed commitments and cross-functional bottlenecks before they reached the board.
- Created the board materials, sat in the quarterly board meetings, and stood up KPI and FP&A reporting in Adaptive Planning that gave leadership real-time visibility into performance across the acquired portfolios.
- Reported the financial health of each acquired portfolio to the C-suite through P&L roll-ups, revenue forecasts, and budget-versus-actual reports, informing investment and acquisition decisions that kept spending aligned.
- Ran budget and headcount requests from business case through approval with Finance and the executive team, and contributed the financial narrative and data room materials behind Kaseya's $500M+ TPG and Insight Partners round in May 2019.

Consulting Manager — 2017 – 2018 · New York, NY

AArete

Partnered with the executive sponsor at a biotech client on cost optimization and operational transformation, delivering savings through vendor renegotiation and process redesign.

Team Lead (bluebird bio)

- Ran AArete's side of a multi-initiative program across Procurement, Legal, HR, and Operations on the bluebird bio engagement that delivered $1M+ in annualized savings, freeing spend for cancer-research technology.
- Redesigned the client's procurement process, rebuilding how the client bought from its vendors across spend categories.
- Negotiated improved vendor terms across multiple spend categories, through the contract reviews and supplier sourcing.
- Built the program reporting that tracked financial impact and risk from kickoff through close, briefing the executive sponsor weekly.

Senior Consultant / Consultant — 2014 – 2017 · New York, NY

Optimity Advisors

Advised the CEO on special projects while delivering regulated programs for Financial Services, Media & Entertainment, and Healthcare clients, including payer-side Open Enrollment program management for Health Republic Insurance of New York.

Technical Business Analyst (Moody's)

- Handled business requirements management for Moody's next-generation internal credit analytics platform engagement.
- Contributed to 20% efficiency gains through process optimization and performance tracking during structured delivery.

Project Manager (CareFirst BlueCross BlueShield)

- Led implementation of a small-business health insurance product within a 7-project program against strict regulatory timelines.
- Kept one running status on progress, risks, and dependencies across the program, and escalated each slip as it showed up.

Strategy Consultant (Beacon Health)

- Interviewed the client-facing and clinical provider teams to diagnose the workflows slowing a national behavioral health managed-care organization, then built the executive presentations and financial models behind its reorganization.
- Supported the company-wide reorganization Beacon Health's own leadership approved, which cut operating costs 15% and improved process efficiency 25% over a 6-month engagement, having synthesized clinical and operational data into its cost-savings scenarios.

Systems Analyst Intern — Summer 2013 · Reston, VA

Maximus

Supported enterprise technology delivery for New York State's government technology programs, bridging business, engineering, and delivery teams throughout the engagement.

- Translated business and operational requirements into technical specifications for the development teams supporting New York State software delivery, so requirements reached the delivery team in a form they could build against.

EDUCATION

College of William & Mary — 2010 – 2014 · Williamsburg, VA

B.S. Neuroscience; Minor in Process Management & Consulting
